CARRER OBJECTIVE

To leverage my skills in strategic thinking and innovative solutions in a dynamic environment, contributing meaningfully to organizational success while advancing my personal and professional growth.

PROJECTS DONE

Gourmet Atlas - React.js, Node.js, MongoDB

- Gourmet Atlas is a user-friendly recipe app for discovering, saving, and sharing global recipes with a personalized planner and community features.

Inventory Management System - Python, MySQL, Pandas

- Inventory Management System uses MySQL, Python, and pandas to track inventory, automate orders, and provide data insights for better decision-making.

Purchase Details Manager - Java

- Purchase Detail is a Java mini project that tracks and manages product purchases, including features for adding, updating, and viewing purchase records.

Oven Alchemy - Figma

- Oven Alchemy is a bakery-themed UI design project in Figma, focusing on a delightful and user-friendly experience for browsing and ordering baked goods..

Smart Collection of Garbage and Management System

- Designed an innovative waste management system using various sensors to integrate it with the environment.

- First Prize Winner** – Technical Quiz, Vivre Event, KEC (2024)
- Second Prize Winner** – Paper Presentation on Quantum Computing, Vivre Event, KEC (2024).

CERTIFICATES

- Associate Developer Exam Node.js** - MongoDB University
- Oracle Cloud Infrastructure 2024 Certified Foundation Associate** - Oracle
- Gen AI** - Guvi Learning

LEADERSHIPS

- Class Representative** – 3rd Year, Department of CSD , KEC.
- Master of Ceremonies (MC)** – 2 Events, Rotaract Club, KEC.

WORKSHOPS

- Node.js Workshop** – Conducted by CDW (Sept 2024), KEC
- AR App Development using Unity** – Conducted by CTUG, KEC (2023)

LINKS

EDUCATION

2022 - 2026 | KEC

Bachelor of Engineering in
Computer Science and Design
(In Progress)

CGPA - 8.39 (Until 5th sem)

CORE COMPETENCIES

- Project Management
- Teamwork
- Leadership
- Effective Communication

DESIGN SKILLS

- UI/UX Design
- Graphic Design

TECHNICAL SKILLS

- Programming Languages**
JavaScript, Python, Java, C++
- Web Development**
React.js, HTML, CSS,
Bootstrap,Node.js, Express.js,
- Cloud Platforms**
AWS (Basic)
- Version Control**
Git, GitHub, Docker
- Tools & Frameworks**
Postman, Figma

AREA OF INTEREST

- Devops
- UI/UX
- Web development
- Machine Learning
